1. [ ] Comment. The existence of a Territorialverwaltung (TV) which is the equivalent of an Armeegruppe is unknown in Potsdam. It is correct that the tank instruction regiment in Burg was subordinate to former TV 5000 in Schwerin and was then assigned to Mechanized Bereitschaft Potsdam.

4. [ ] Comment. These statements confirm previous information according to which the Mechanized Bereitschaft Potsdam was mainly formed from personnel detached by Armeegruppe Nord. Tank Regiment Schmidt belongs to Mechanized Bereitschaft Eggesin. The tank SP regiment of Infantry Bereitschaft Prenzlau is stationed in Droschende. Bereitschaften Prenzlau and Prora have also detached personnel for the tank regiment of Mechanized Bereitschaft Potsdam which was organized in Granienburg.
